Information Technology Solutions & Services

General IT Capability Statement

Femdel is a Certified Information Technology (IT) and Program Management company with more than 10 years of contracting and subcontracting experience. Femdel specializes in providing the right solutions for business needs identified by the customer. Our company continues to provide exceptional and measurable value on work done at the federal, state and local levels as well as private industry.

Our mission is to provide you with system integration services to solve your complex business needs. We can create responsive solutions to your specific needs in the areas of:

- IT Enterprise design
- Network Capacity Planning and design
- Virtualization/ Cloud & Mobile computing
- Program and Project Management
- Data Center Design & Relocation
- Cyber Security & Information Assurance
- Big Data Analytics / Health IT
- Business Continuity and Disaster Recovery
- Software and Application Development,
- Facility/ Logistics Management
- IT Software and Hardware Reseller
- Low Voltage/ Fiber Cabling & Splicing
- Storage and Backup Solution
- LMS / Instructional design Services

While we understand there is no one-size-fits-all approach, we ensure that you will have contact with our key personnel that provide superior knowledge in their technical approaches and solutions. Femdel employees are our biggest asset. Our team of experts bring top industry certifications, coupled with years of experience, to services provided to our customers.

Customer service is an integral part of the Femdel business model. We pride ourselves with an ongoing trend of delivering timely and innovative solutions. We focus on ongoing, meaningful customer engagement using techniques such as relevant and customized Earned Value Management (EVM) reporting. EVM reporting keeps customers informed on the scope, schedule and cost associated with Femdel's work performed. It also enables the customer to track value earned on the work contracted to Femdel.
